**ONE ON ONE WITH ERIC TRUMP - BY LARRY MOORE**

*Eric Trump visited our busy September meeting and spent the afternoon walking the show and talking to members. He also sat down with writer and member Larry Moore. Special thanks to Past President Joe Pittenger for bringing Eric Trump to the September meeting, and to Larry Moore for this outstanding interview. **Eric Trump with the author at The Roberts Centre**

When the opportunity to interview Eric Trump came up during a visit to the Ohio Gun Collector's Association (OGCA)

show and the Sportsmen's Alliance Rally, I jumped at the opportunity to get a first-hand look into the Trump family's participation in shooting sports, hunting and, especially, their views on the Second Amendment. There are clear differences between the Trump Campaign and that of Hillary Clinton. None is a more stark contrast than the future of the Second Amendment.

**Moore:** *How did you become involved in hunting and the shooting sports?*

**Trump:** A very important mentor in the outdoors was my grandfather. He actually came to the US [from Czechoslovakia]. We would travel to communist Czechoslovakia where he would give us a bb gun and we would spend a day in the woods. He

was also a great fisherman. He loved the outdoors and got us into it. It is something we've carried our entire lives. We loved it through high school and college. If we are not working we are hunting, shooting or fishing. It is a great American tradition and a large part of my life.

Quite frankly so many of my peers were drinking at an early age. They partied all night and went down a lot of bad roads. We were waking up at 5 AM to get into a deer stand. The shooting sports actually kept me away from those bad influences. I can directly attribute the shooting sports and outdoors for keeping me on a very clean path in life. I think that is the case for a lot of young people.

**Moore:** *Do you have a favorite type of hunting?*

**Trump:** It is so hard to pick one. I love deer hunting in November during the rut. I live in the woods in a tree stand with my bow. I also enjoy waterfowl hunting. I spend time in New Mexico elk hunting and just returned from a caribou trip in Canada. I also

do a lot of turkey hunting. It's very hard to pick a favorite but the deer and waterfowl hunting are special.

**Moore:** *What type of shooting sports do you participate in?*

**Trump:** I shoot about a pallet of shotgun shells each year. I like a lot of trap, skeet and sporting clays. I shoot on some pistol leagues and enjoy steel challenges. I've done some long range shooting and small bore also. I enjoy the three disciplines and the sub-disciplines of shooting. I also reload for a variety of calibers. My wife enjoys the shooting sports with me. She is a really good shooter. She loves shooting shotguns and pistols. My sister, Ivanka, also joins us shooting. We believe in the shooting sports as a hobby and great American heritage.

**Moore:** *You had an important mentor in your life. Are you mentoring new shooters and hunters?*

**Trump:** Mentoring new people is everything. Getting women and young people into the shooting sports is so important. My brother has five kids. He will bring them out to the woods for deer hunting. It is the most rewarding thing. I'm at a point in life where if I can take one of them out, I don't care

A very warm and sincere "thank you" goes out to our members and tableholders at the September meeting. We appreciate your cooperation in deactivating and unloading all firearms, clips and magazines before arriving. As everyone knows, plastic ties must go thru the barrel or action in such a way as to make the firearm inoperable. Please continue to present all firearms upon entering, and Directors on duty at the Gun Tie Desk (lobby) will assist. Absolutely no loaded weapons are permitted in the Roberts Centre! Loaded personal carry guns does not belong in the hall under any circumstances.

about pulling the trigger. I love to share that with others. We love to get the kids out hunting, shooting or fishing. We have some good marksmen coming on in the family. I've never met a female that doesn't love the sport once you introduce them to it. It's just so important to introduce new people to the sport.

## Moore: What does the Second Amendment mean to you and your family?

**Trump:** Dad loves the Second Amendment and believes in it. We want the good guys in the country to have guns. Bad people will always have guns. Good guys with guns are not the problem. This is common sense. We believe in concealed carry and that a person has a right to protect themselves and their home. Look at every country where guns have been taken away and what has happened. That's the reason there is a Second Amendment. It was put right after free speech for a reason by the founders. It is smart for our country.

## Moore: A critical point for any President is the appointment for judges. How important is this to the future of our country?

**Trump:** Anybody who doesn't think this is

**David Winston and David Marlatt greet Eric Trump. With over 6 decades of membership between them, they made for great OGCA representatives!**

the most important election in recent history is really underestimating the impact of the next President. The next President will put three or four people on the Supreme Court of the United States. If Hillary has the opportunity to do that, our Second Amendment is done. The traditions and heritage of the outdoors, the shooting sports and hunting is done. There is one seat to be filled immediately. It is clear that a Trump Presidency will appoint a very pro-Second Amendment and pro-sportsman while Hillary will do the exact opposite. If there is anything worth voting on in this election, it is who will put in the Supreme Court Jus-

tics. We are one justice away from losing the values we cherish. Everyone understanding this and getting out to vote is so critical.

*Eric Trump, who is obviously experienced with the media spotlight, was clearly at ease with the questions and conversation. He brought an energy to the interview. He spoke with passion, conviction and without hesitation as a man who understands the issues and his position. He hadn't requested nor seen the questions prior to the interview. This was not a political stump speech but a young man speaking from the heart about hunting, shooting, fishing and, most importantly, the Second Amendment.*

*He clearly enjoyed his visit at the OGCA show. Many of the members who saw and spoke with him at the show commented on his knowledge of firearms. They noted that he is knowledgeable about the firearms experiences and quite comfortable discussing them. He shares the same values and passion for the firearms and the Second Amendment as the members of the OGCA, supporters of Buckeye Firearms Association and pro-gun advocates.*
